Revestimientos realizados por fusión de capas de PVC, que nos garantizan la resistencia a roces, abrasiones, fáciles de limpiar, retardantes de fuego...con una sencilla y rápida instalación podremos crear nuevos espacios o renovar sin necesidad de grandes obras. Su capacidad termoformable lo hace moldearse y adaptarse totalmente a la forma que deseemos revestir, convirtiéndose en el aliado perfecto para restauración o renovación de mobiliario. Además, al ser autoadhesivos nos facilitará su instalación asegurándonos un acabado perfecto. Aptos para colocar sobre cualquier superficie: madera, cemento, pintura, pladur, azulejo...

Films created by fusing together layers of PVC, guaranteeing resistance to acuffing and scratching, easy to clean and fire-retardant, quick and easy to install to create new spaces or renovate existing areas without the need for major work.

Thanks to its thermoforming capacity, it can be fully moulded and adapted to any shape, making it the perfect solution for furniture restoration or renovation. Its self-acheseive quality also makes it easy to install and guarantee a perfect finish. It is suitable for installing on all types of surfaces, including wood, cement, paint, plaster or tiles.
