

DECORATIVE FILMS

INT 139 WHITE GRADIENT DÉGRESSIVE

INDOOR INSTALLATION

DESCRIPTION

This white film, which decreases in size from the bottom up, will allow you to maintain your privacy while allowing light to pass through with its 2.10M width. The white opaque part of the film is 105 cm high. Perfect for large partitions.

Durability : 12 to 15 years for vertical application in Central Europe.

Use : for all types of glass.

Maintenance after 30 days : with a usual cleaning solution (non-abrasive, without ammonia...). Do not use cleaning products that could scratch the surface.

Storage : 2 years from delivery. This film should be stored away from excessive moisture and sunlight,

In order to meet high standards, we recommend that you do not mix films from different productions

APPLICATION T° :min, + 5°C
STANDARDS :EUROCLASSES
FIRE RANTING : B-s1,d0
GUARANTEE :10 Years inside*

* For glazing not exposed to the sun

DIMENSIONS

By roll :

2,10 x 30 m

Application Note

Video of the installation

Method of application

The surface to be bonded must be free of dust, grease or any other contaminant. Some materials, such as polycarbonate, can cause bubbling problems. A compatibility test is therefore recommended. For more details, we recommend that you consult the prescription table.

Production monitoring and standards

In order to constantly improve our products, we may have to modify the colours and manufacturing processes without prior notice. Before applying our films, we recommend that users ensure that they are suitable for the intended use and that they comply with current standards.
