

MIRROR

MIR 800 TOTAL MIRROR

INDOOR INSTALLATION

Mirror of the 2 sides

TOTAL MIRROR 98%

DESCRIPTION

Our MIR 800 film turns your glass surfaces into a total reflective screen on both sides. It does not let light through and thus forms an opaque wall. Whether it is to meet your decorative needs or to preserve your privacy, our film fulfills all the properties offered by a mirror.

Total mirror at 98% interior installation.

Durability: 12 to 15 years for a vertical application in Central Europe.

Use: For clear glass and double glazing smaller than 1.20 m².

Maintenance : after 30 days with a usual cleaning solution (non abrasive, without ammonia...). Cleaning products that could scratch are not recommended.

Storage: 2 years from delivery. This film must be stored away from excessive humidity and sunlight, at a temperature below 38°C.

In order to meet high standards, we recommend that you do not mix films from different productions

Method of application

The surface to be bonded must be free of dust, grease or any other contaminant. Some materials such as polycarbonate can cause bubbling problems. A compatibility test is therefore recommended. Possibility to install on plexiglass and polycarbonate.

Production monitoring and standards

In order to constantly improve our productions, we may have to modify without notice the colors and manufacturing processes. We recommend to our users, before applying our films, to make sure that they are exactly suitable for the intended use and to comply with the standards in force.
